

## EURO 600 LP

For all those customers in the pasta industry, Sigitaspak has developed a solution to package long pasta such as Spaghetti or Bucatini. With a top seal film-reel, this dedicated horizontal flow wrapper can be integrated with small scales on the conveyor belt for semi-automatic processes or with automatic feeding systems with the appropriate scales for more performing packaging processes. The Euro LP range of machines also include the rotary jaws version to achieve higher throughput.

SCAN ME

Performances up to 25 or 45 bpm depending on the model

Stainless steel structure

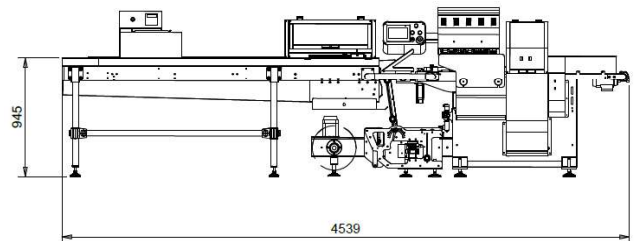

Reel's width up to 480 mm / 18,90"

Compatibility with automatic weighing system to achieve higher speed

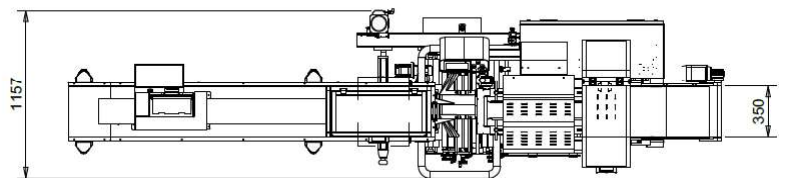

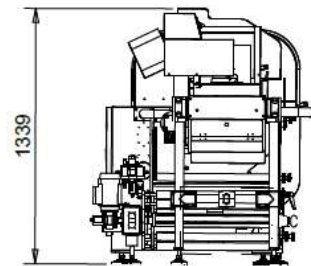

## Technical Data

Max mechanical speed	Up to 25 or 45 bpm depending on the model
Reel's max external Ø	350 mm / 13,78"
Reel's max width	480 mm / 18,90"
Product's max height	95 mm / 3,74"
Packaging materials	Polypropylene, coupled, metallized, pearled and cold seal films
Recipes	40
Interface	7,7" color touch screen
Electrical supply	380V, 3P + N + G (other upon request)
Installed power	8 kW
Structure's material	Stainless steel AISI 304
Weight	~ 500 kg

## Options

- No Product - No Bag
- Right-hand version
- Printer
- Remote connection device
- Lowered wheels' seal
- Loading conveyor elongation
